RUMBLIES OF AN IMPENDING WAR

Turks Awaiting Word to Advance

British Hold Key to Southern Straits—Allies Feverishly Endeavoring to Bring Peace.

(By the Associated Press.)
LONDON, Sept. 21.—While the allied powers are feverishly endeavoring to arrange a peace conference to clean the slate between Turkey and Greece to prevent more fighting in the near East. Rumbles of impending hostilities continue to come from Constantinople and the Dardanelles. A relatively small force of British troops are holding Chanak, key to the southern shore of the straits. The Turks, eager to further their conquest, are concentrated outside the neutral zone impatiently awaiting word from the Pasha to advance.

Haiti Birthrate On the Increase

(By the Associated Press.)
PORT-AU-PRINCE, Haiti, Sept. 21.—With a ratio of three births to each death, as shown by vital statistics for the first six months of 1922, the island nation's population is increasing and is free from race suicide. A striking phase of this increase is that the difference in male and female babies is negligible. The gradual adoption of American sanitary methods, the improvement of the agricultural yield, and the cessation of Haitian revolutions with their considerable toll of deaths and hardships that were reflected in successive generations, are responsible for the marked increase in a naturally prolific people. Last year the ratio was two to one.

Haiti's native population, when she revolted against France in 1791, was slightly over half a million. Today it is estimated at 2,500,000, a steady and normal increase.

Prior to the American occupation vital statistics were collected by Haitian government. Estimates of the population were made by French priests and generally accepted. A system inaugurated by the American Sanitary Service, cooperated in by the Haitian gendarmerie, is beginning to yield results of growing accuracy. The first six months of this year showed an increase of 60 percent of the communies making reports, as compared to ten percent last year.

Over Five Miles Streets Improved

City Has Spent Over \$200,000 in Smooth Surfacing This Year—Work Almost Finished.

The R. M. Hudson Company which since last Spring has been improving city streets has virtually completed the city's programme only two pieces of work remaining to be done. One of these is a three hundred yard concrete stretch from Bridge street along Canal to Main, where the concrete paving already is laid and the other is improvement on Bradley road. During the past few days the company has been going over the various streets in the city patching holes. West Main street which has shown signs of deterioration through the summer has had many of the bad holes and ridges refilled with asphalt but is felt that no further improvement can be wrought until a concrete base has been laid and the asphalt surface superimposed. It will probably be several years before any effort is made to resurface West Main street in view of the large sum spent on of recent years and the fact that other streets in the city have prior claim.

City Engineers H. R. Davis has not yet completed his fifth year of street work here in Danville this year. It is expected to show, however, that more than five miles of permanent smooth surface has been laid in the streets of the city at a cost of over \$200,000. There is no doubt that the work accomplished this year in street improvement is the largest ever done in any one year in the city's history. It is now possible to spend a considerable time driving over a new smooth paved street of the city.

The Hudson Company will retain its plant here until next year for there will be some important improvements done then. There is little doubt that Craghead street will be smooth paved this being in bad need of repair at the present time. The work accomplished this year virtually completes the improvement programme under the bond issue plan.

Boys Of Egypt To Be Curbed

(By the Associated Press.) CAIRO, Egypt, Sept. 21.—The inauguration of a strict policy by the Egyptian government to deal with the fanatical enthusiasm of the school boy politicians is regarded by all the native papers as a necessity of the hour, if the Egyptian political and educational structures are to be saved from disruption.

The students in the universities and high schools of the country who came forward last year and joined in street demonstrations to help win political freedom for Egypt, have now developed a new movement which seems to be a general revolt against all existing customs that conflict with their own personal aggrandizement.

The students, conscious of their power, have turned their energies to eliminating examinations. Their political slogan is "peak and waspish. We do not want the English. Today they are shooting." "We want no more examinations." And they are keen enough to plan a campaign which will use politics as a lever to make easier their classroom work.

The elections for members of the new Parliament are set for October. The students aim to see that only candidates who need their demands are returned to both houses. Their election slogan being tried out in this wise: "Vote for Hammond Boy and no examinations."

Followers of Zaghloul Pasha are taking advantage of the students' over zealousness and are showering upon them all kinds of promises in return for votes at the coming elections.

Church Gold Feeds Hungry

MOSCOW, Sept. 21.—Five hundred pounds of gold and 2,500 pounds of silver, part of the accumulation by the Soviet government as a result of confiscation of church treasures, has been transferred to the committee of famine relief, according to official announcement. All this metal and more, it is stated, is to be converted into cash for the purchase aboard of supplies for the hungry of Russia. The first cash realized by the sale of church gold and silver was expended in Finland for food some months ago.

Probe Violence On Birmingham Ry. Yesterday

(By the Associated Press.) BIRMINGHAM, Sept. 21.—Outbreaks of violence in Birmingham railroad districts last night caused renewed energy on the part of authorities today in their effort to put down the use of high explosives. An investigation is being made in connection with the bombing of boxes used in the warehouse yards of the Louisville and Nashville railroad. The explosion smashed the car to pieces, one man, Clarence Jones, being severely injured.

Community Chest Being Discussed

Representatives of local civic organizations interested in the Community Chest movement have held several meetings recently preliminary to making an appeal to the public for funds to make possible a continuation of the work of charitable organizations. Only the rough work has been gone over so far and it is impossible to say just now how much will be asked for when the campaign is put on. The Danville Community Chest, Inc., has been chartered and temporary organization has been perfected with P. Boatwright, president. Recently representatives of the Kiwanis, Rotarians, Lions, Community Welfare, I. W. Chamber of Commerce, Young Men's Business Club, Retail Merchants, Hilltop and the American Legion organizations have met to discuss in a general way the work which lies ahead. At the present time the organizations to be benefited by the money derived, are asked to contribute a portion of their receipts last year and next quarter for the coming year in order that an approximate total of the amount required can be derived.

It is likely that something like \$60,000 will be needed in establishing the chest and it is contemplated to bring here an expert in conducting drives and give him the support of the organizations represented in the recent conferences. The organizations like to derive funds from the chest are: M. W. C. A. Community Welfare, Hilton, Salvation Army, Danville Library, Red Cross, Travelers Aid, with probably others to be included later.

IN THE POLICE COURT

The case against James Webster, colored, charged with running over and painfully injuring Ned Newell several nights ago, was adjourned to October 21 because of the fact that it is not expected that the injured man will be able to appear in court before that time. He is a patient at the General Hospital suffering from a fractured leg and other injuries, none of them serious, however.

The docket in the court today was a comparatively short one.

W. L. Love was fined \$20 and costs for having a concealed weapon.

Lieutenant C. C. Moseley of McCook Field, Dayton, Ohio, winner of the 1920 Pulitzer race, will pilot a Verilie-Packard.

Stolen Machine Is Found Abandoned

A resident of Park Springs community reported to the police yesterday that a Ford touring car had been abandoned in a field for several days. The man whose name was not learned sought to know if a machine had been stolen from Danville. Investigation revealed that the car had been stolen from H. L. Driscoll in Reidsville recently. Other than furnishing the Reidsville authorities with the information the local police took no further interest in the case on the ground that the car was not stolen from Danville.

FAIL TO OVERRIDE RESUME GRETNNA INVESTIGATION

County Grand Jury Questions More Witnesses

The Pittsylvania grand jury sitting at Chatham, was delayed yesterday in taking up the investigation of the alleged disturbance at Gretna and adjourned yesterday evening after two witnesses had been examined. One of the men closely examined was Ollie Ramsey, constable of Chatham, one of the two magistrates who presided at the hearing when Ollie Ramsey was acquitted of violating the Mapp act.

The enquiry was resumed this morning when court resumed its sessions with indications of some determination being reached during the afternoon. Witnesses from Gretna were reported to be on hand this morning prepared to testify and state and county officers were also on hand to give their version.

Enquiry made of Sheriff Hodnett this morning revealed that so far as he knew there are no warrants out for the two detainees who violated the Mapp act. Hodnett said that he knew nothing whatever about a handful of warrants for the North Carolina men, adding that if they were out they would have been put in his hands to be served. It is reported reliably that the two detainees on reaching Chatham, were met by a man at the station who urged them not to alight, warning them that there were several persons charging violation of the Mapp act against each one. Whether or not this was a subterfuge to prevail on the officers to leave the vicinity quickly so that they would not be present to give damaging testimony afford a phase for grand jury investigation. The men were not at Chatham today, and the general opinion was that that would not be there.

The grand jury which is investigating the affair is composed of the following:

G. W. Harper, Jr., W. E. Edwards, W. E. McCormick, J. A. Cole, J. H. Burton and A. B. Douglas.

Market Opens October Third

Tobacco Association Makes

It Day Later to Avoid Confusion Here on Sunday.

At a called meeting of the Danville Tobacco Association held in the rooms of the Chamber of Commerce this morning the date of the opening of the Danville tobacco market was changed from October 2nd to October 3rd.

This was done as a precaution against considerable confusion anticipated had the original opening date been adhered to. October 2nd comes on Monday. The experience of every auction market-in town this season has been that on the opening day there has been a glut of tobacco and it has been felt that if it is opened on Monday wagons would come pouring into Danville on Sunday and it would be necessary for them to unload Sunday night. Warehousemen foreseeing considerable confusion felt that it were best to make the opening on Tuesday, giving farmers Monday on which to start their journey here with tobacco.

A motion amending the by-laws of the association was presented today making Section 5, par. 2 read "No warehouse shall have first sale for two days in succession unless more than three sales are operating simultaneously. This lies over for ten days.

There is no further doubt that quadraple sales will be in evidence here on the opening day of the market here.

Warehousemen are authorized to dispose of their surplus tobacco which, if experiences in North Carolina are repeated will be in evidence here.

There is no further doubt that quadraple sales will be in evidence here on the opening day of the market here.

Warehousemen are authorized to dispose of their surplus tobacco which, if experiences in North Carolina are repeated will be in evidence here.

Warehousemen are authorized to dispose of

**Vice Presidents
of Danville Fair
Pledge Cooperation**

The honorary vice presidents of the Danville Fair association were luncheon guests of the Fair association yesterday at 1 p.m. at the Hotel Marion, and after digesting an excellent menu prepared for the occasion, a series of informal talks were made by various guests and by some of the townspople, all commanding the Fair and pledging their interest and aid to the movement. The trend of all the talks was decidedly optimistic, and the occasion was in every sense a harmonious and congenial commingling of men drawn together by common interests and in support of a common purpose.

Most of the talks were brief, but to the point, and the consensus of judgment was that the annual Fair had been stimulative of improved agriculture, better strains of cattle, sheep and swine and more production and profitable agriculture.

Among the guests were several members prominent and active in the organization for the cooperative marketing of tobacco and others who favored adhering to the old auction method of selling, but not a word was said that would indicate that such differences of view were entertained.

In a word, the point of agreement as to the desirability of agricultural Fairs and the bright outlook for the most creditable one ever held here or outside or the State capital contributed the themes if the speakers.

President A. D. Starling occupied the seat at the board, with Frank Talbot, who later presided when the speaking began seated at his right.

All of the adjacent counties were represented and those present were indeed representative men in their several counties and localities. Mr. Talbot in assuming the post of master of ceremonies made a happy little introductory address lightened with some pleasanties and clever anecdotes, but chiefly designed to awaken and to justify more active interest in the project which as other speakers declared was the farmers' Fair, not Danville's save as the community of interest between the community and the contiguous counties made it so.

Secretary Henry B. Watkins, a veteran Fair official who has the heading of the multifarious detail of a project of such magnitude, reviewed the progress of preparations. He stressed the prospects for numerous and particularly fine exhibits of agricultural and industrial products, referring especially to the great poultry exhibit, then the assurance of a larger and better live stock exhibit than has been seen at any Fair. With this opening he gave a comprehensive summary of the features of the Fair from the standpoint of the quantity and quality of exhibits, but touching upon the unusually fine music, the high class free attractions and the entertainment and diversion features now assured.

He had been to the Staunton Fair and had there witnessed many of the attractions and enjoyed the music by the Victor band which has been engaged for the Danville Fair.

Among the guests called on for speeches were W. E. West, Chairman Whitehead of the Pittsburgh sun-visitors; R. L. Bryant, James C. Warren, Richard Ivey Smith, D. A. Still and in fact almost all present contributed a word or two in approval.

**Strength from
Ironized Yeast
Simply Glorious!**

It Follows a Natural Law Which
Never Changes or Fails. The
Entire Body Quickly
Feels New Power!

"We just about gone to pieces!" Do you know that getting back strength is a complexion? Do you realize that it is almost impossible to get back your strength by means of unnatural drugs? Do

you know that about one woman out of every three is exhausted because of nerve and blood starvation? The remarkable power of yeast-ironized yeast is proven.

There is no further excuse for being weak, sick, run-down. Ironized Yeast contains the tremendous natural building forces of vitamins and minerals, and adds to them the salts of iron and strength in half the time it takes to eat. You know why? Ironized Yeast is not a mere mixture of yeast and iron. True yeast, ironized, which is a substance all its own. That's what makes Ironized Yeast the most powerful, natural builder in the world today. You will find a new strength coming over you, year after year, as you grow stronger and stronger.

It is not being taken to have Noblett brought back to the city to face a charge of wife desertion and it is probable that a white slave charge will also be laid against him.

Mrs. Noblett stated yesterday that she greatly appreciated the gift of the local Klan saying that she did not know what she would have done had she not been assisted.

Madam, Ironized Yeast Will Build You Up Amazingly and Quickly! You know that about one woman out of every three is exhausted because of nerve and blood starvation? The remarkable power of yeast-ironized yeast is proven.

There is no further excuse for being weak, sick, run-down. Ironized Yeast contains the tremendous natural building forces of vitamins and minerals, and adds to them the salts of iron and strength in half the time it takes to eat.

Strain of Trial Tells On Tierman

Darry Poulin Appears Bored as Sensational Suit Goes Deep Into His Life.

SOUTH BEND, Ind., Sept. 20.—John Tierman, Notre Dame law professor, testifying today in the case of his wife, Mrs. Augusta Tierman, who charges Harry Poulin with the paternity of her son, denied he was the father of the child.

Throughout today's hearing Poulin maintained an attitude of bored apathy only once showing signs of interest. Professor Tierman denied paternity of the child.

Professor Tierman told of a series of lancing parties at surrounding towns. He said the invitation came from one from Poulin to Mrs. Tierman, and that he was urged by his wife to go along.

Asked by the prosecutor if Mrs. Tierman was frequently away from home, the witness replied:

"Between February and April she was regularly away from home on Wednesdays and Friday nights and occasionally on Saturdays. Often she said she was going to church. I encouraged her in that—attending Lenten services."

Professor Tierman showed his first signs of cracking under the strain of the trial when Prosecutor E. H. Teller inquired into the birth of the boy. His answers were low and in a trembling voice and often tears came into his eyes. He told of the baptism of the child two weeks after its birth and later of the repudiation.

The prosecutor attempted to bring out the story of Mrs. Tierman's confession to the highwaymen, but on objection of defense withdrew the question and asked Tierman what he did when he learned Poulin was the father of the child.

The professor answered that he went to the Poulin home and told the defendant that his (Tierman's) wife had confessed. The witness asserted that Poulin then admitted his guilt and offered to make a settlement of the case. Court was adjourned at this point until tomorrow morning when Professor Tierman will resume the stand.

WAR SOUVENIR SHELL EXPLODES AND WOUNDS TWO VETERANS

NEW YORK, Sept. 20.—Two ex-service men were wounded, one perhaps fatally, when a one-pound German shell fell from a shelf and exploded in their ground floor room at the six-story apartment house N. 125 West 58th Street, at 4:30 yesterday afternoon. The explosion wrecked this room and one in the adjoining building, No. 127. It caused consternation among twenty families.

Both men employed as elevator attendants in the apartment house, Harold Ackerman, twenty-two, was hanging pictures when Joseph McLean, of the same age, came in to get a percolator which was on a shelf over the bed, between the two shells cast there by a former employee, also an ex-service man.

A. Noland, standing on the bed, reached for the percolator he tipped off the shelf. The shells slid off. One hit a gas stove. Instantly it exploded and the men were caught in the rain of shrapnel which flew all

Fair Treatment Basis Of Success

BOSTON, Sept. 21.—Survey committee of the Unitarian Laymen's League, investigating business concerns in 28 states and in Canada in which industrial harmony prevails and conflict is unknown, have completed their reports of 650 surveys, covering both the very largest industries and also many which though small are representative, and the one outstanding fact which exists in every single case" was announced by the League as follows:

"The managers have acted upon their consciousness that all who work in their organizations are fellow human beings; brothers and the spirit of the managers is also the spirit of the great majority of the workers."

"The Unitarian Laymen's League is not equipped to make a complete canvass of all the concerns in the United States and Canada in which industrial harmony prevails, but certainly the fact that, in every case reported, success in business and industrial harmony have gone hand in hand with action based upon the principles of man's brotherhood with man, is a straw which probably indicates the direction of the wind."

These surveys were authorized by the annual convention of the Laymen's League, held in September 1921, at Narragansett Pier, R. I., to which 168 of the League's 242 chapters sent delegates. The report of the committee in charge will be submitted at the 1922 convention, to be held at New Haven, Conn., September 8-10. The 30 chapters which have been organized since the 1921 convention will be asked to make surveys before the final report, with conclusions and recommendations, is made.

Other League and chapter problems and programs will be discussed "without benefit of clergy." At these annual conventions of Unitarian laymen the only minister present comes to preach the convention sermon.

—Miss Wilma Williams, a graduate of Danville High School 1922, left Monday for Farmville to attend the State Normal School.

U. S. Uses Twice As Much Opium As India, Drug's Chief Producer

GENEVA, Sept. 20.—The assembly of the League of Nations adopted the report on restriction of trade in opium this morning, after a lively discussion in which the United States was pictured as one of the most interested parties, whose consumption was estimated to be twice that of India.

The famous Prince Ranjitsinhji, of Navanagar, India, wittily called attention to some facts which he said had been overlooked by philanthropists. First, although India was commonly understood as producing all the opium and China as consuming it, the facts

were quite different. Opium was regarded in India by the people in the same light as an Englishman regarded his cup of tea and the Frenchman his glass of wine. Still India does not eat it all. Her people, he explained, after a hard day's work, take just enough to give them a sedative that may be compared to a stimulant taken by the people of a Western country.

The Chinese delegate declared that the great trouble lay in smuggling of opium into his country through foreign ports. Colonel Ward, of England, resented this charge, saying that if any smuggling went on in China it was by the Chinese themselves.

James D. Harrison Wins Golf Cup

James D. Harrison, long considered one of Danville's best golf players has won the cup offered John H. Schopfleld, president of the Danville Golf Club. He defeated Hugh Guerant in the 36 hole finals 11 and 10, the last round being played yesterday. This entitles Mr. Harrison to the silver emblem, a handsome trophy which is offered each year by the club president. Mr. Harrison played consistently good golf throughout the tournament and in the qualifying round set a new record for amateurs on the Stokesdale links.

PRESIDENT SIGNS BILL

WASHINGTON, Sept. 21.—The Comptroller bill providing for the regulation of trading in futures in the grain market was signed today by the president.

Capt. W. J. Williams, of the Salvation Army, has arrived from Salem to assist in the work here.

Bud Langford Is Suspended

(By the Associated Press.) GREENVILLE, Sept. 21.—"Bud" Langford, star of Furman University's football team, has been indefinitely suspended from college as result of charges growing out of hazing freshmen. The student body held meetings and drew up a petition in view of having Langford reinstated.

Storm Moving To Northeast

(By the Associated Press.) WASHINGTON, Sept. 21.—The South Atlantic storm was central this morning off Cape Hatteras and was moving northeastward, the weather bureau reported today. Storm warnings were displayed along the coast from Hatteras to Boston.

WHERE NEW WAR NOW LOOMS BRIGHT

TURKISH nationalists troops under the leadership of Mustapha Kemal Pasha who defeated the British at Gallipoli in the World War, have advanced from their base at Ankara, Asia Minor (1) and have taken the important seaport and commercial center of Smyrna (2) which fire of uncertain origin destroyed as it was captured, he Turks have driven the Greeks from the whole coast of Asia minor; the latter are fleeing to Piraeus. From his positions in Smyrna and Brusa, Kemal is able to threaten Constantinople (3), now under international control. Allied warships in the

Sea of Marmara and before Smyrna are preparing to hold the Turkish leader in check. Britain is sending troops to occupy the neutral zone about Constantinople, indicated by the dotted line. Kemal in a draft of peace terms has demanded Constantinople and Adrianople, seen west of Constantinople,

This, together with the suspicion that Bulgaria may support Turkey, has caused Jugoslavia to mass troops on its borders (5). Meanwhile Soviet troops in the Caucasus (6) to come to the aid of Kemal. The bulk of Kemal's troops are quartered on the mainland of Asia Minor (4).

Collapse His Lung To Remove Needle

Boy Near Death Until Surgeon Takes Steel From Pleural Cavity Near the Heart.

NEW YORK, Sept. 20.—By a remarkable surgical operation, removal of the larger part of a needle from the pleural cavity near the heart, the life of William Constantine, a medical scholarship student at the Ethical Culture School, was saved. Yesterday he was discharged from Roosevelt Hospital cured.

William, with several companions, asked a truck driver for a "lift" Sept. 6. As he mounted the truck, a needle he had stuck in his shirt was forced into his stomach.

At first he thought it a splinter, but the pain made him open his shirt. A quarter of an inch of the needle protruded from the flesh. As he tried to remove it the end broke and he sank, doubled with pain.

William was rushed to Roosevelt Hospital, where an operation was performed the following day under the direction of Dr. Henry W. Cavonne of East street.

At first it was thought the needle had pierced his heart. The operation necessitated the "collapse" of one of his lungs, and he was obliged to breathe only with the other during convalescence.

Several months ago he averaged highest in a mentality test at Columbia University. He is the captain of his school's basketball team and manager of the baseball team. He is the oldest of a family of five, and lives with his mother, a widow, at No. 346 West 49th street.

Bonus Bill On Shelf Until Next Congress

GAFFNEY, S. C., Sept. 20.—Charging him with too much activity in the recent political campaign, descendants of Skull Shoals Baptist church in Cherokee county have requested the resignation of the Rev. F. C. Hickson, their pastor, and moderator of the Broad River Baptist association. Mr. Hickson has not stated whether he will resign.

Mr. Hickson was defeated for nomination as county superintendent of education for Cherokee county in the first primary on August 29. According to E. H. Wilkins, Skull Shoals cleric, the pastor did not confine his campaign to seeking his own nomination but issued a statement asking his followers to vote for Cole L. Blease, who was distanced in the second primary, September 12, by Thomas G. McLeod for the nomination for governor and it is this phase of the preacher's course Mr. Wilkins said that caused the demand for his resignation.

Mr. Hickson has filled various pulpits in that vicinity for 20 years. He came into public notice in war days when he was tried and convicted of violating the espionage laws by opposing the military activities of the government.

Senator Glass voted against the bill and Senator Swanson announced he was paired against it, equivalent to a direct vote in opposition. Congressmen Moore, Woods, Deal, Drewry, and Bland voted against it. Montague Hooker and Tucker were paired against it which is equal to a vote in opposition. Only Congressman Stump, a republican, and Harrison of the seventh district, democrat, voted for it. This is the same way the Virginia delegation has been lined up on the soldier bonus bill for the past six months. Congressman Harrison was originally against it, but voted in favor of it about four months ago and has remained for it since.

To Increase Dry Law Penalty—Violators Delay

LOS ANGELES, Sept. 20.—Violent law violations will cost \$150 each for the violation. Judge Benjamin F. Bledsoe of the United States District Court recommended in substance from his bench.

To get the \$150 fine, which is the lowest his new system provides, the violator must plead guilty at first arraignment.

The penalties will mount with the length of time the violator fights off judgment, and jail sentences will be added to the fines. Judge Bledsoe hopes thus to keep his liquor docket clear.

Rector's Wife Knew Farm Well

(By the Associated Press.) NEW BRUNSWICK, Sept. 21.—Old Hill Top Farm where the murdered bodies of Rev. Edward Wheeler Hall and the leader of his choir, Mrs. James Mills, were found Saturday, was the playground of the minister's wife when a child. Every nook and corner of the house on the place was familiar to Mrs. Hall and her eccentric brother, Willie Stevens, whose movements on the night of the murder had been under inquiry, detectives said today.

J. H. Scruggs is attending a meeting of the Western Union Telegraph Company managers in Richmond.

Miss Frances Williams, a 1921 graduate of Danville High School returned to Farnsillie High School Monday to finish her course.

Boury, Jr., will be glad to know she is able to be out again after a serious illness.

Hill City Road Men Here Saturday

Representatives of the Danville Chamber of Commerce will on Saturday meet a delegation from the Lynchburg Chamber of Commerce whom is coming to this city to interest the community in a good roads scheme which will be carried out. The Hill City boosters have an ambitious programme looking to the improvement of roads leading out of Lynchburg and their visit here is primarily in the interest of a smooth road between Lynchburg and Danville.

Another project would link Lynchburg with the hill cities joining up with the road running through the Valley of Virginia. If the scheme is successful it will bring a large number of tourists and winter tourists through Danville and Lynchburg.

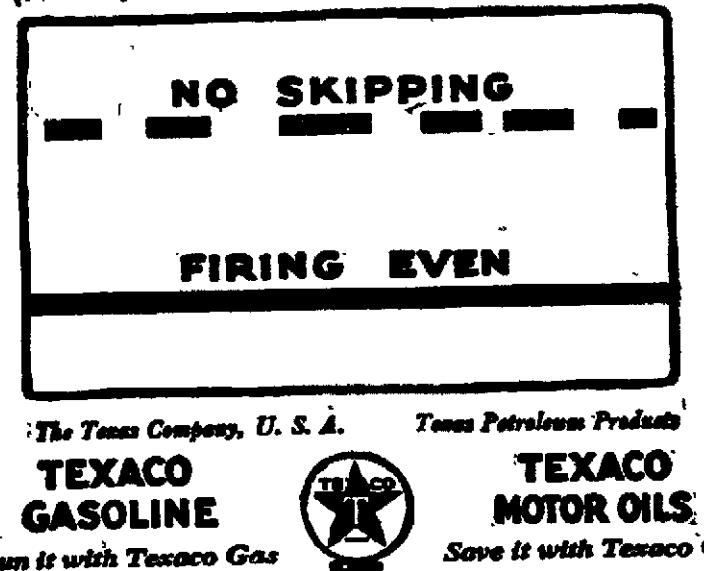

JUDGE LOCKED IN VAULE WINSTED, Conn., Sept. 20.—Judge Bernard E. Higgins of the Probate Court, Torrington, was locked up in the vault in the Clerk's office in the Court House soon after noon today for forty minutes. The Judge was in the vault when the Clerk slammed the door shut at the dinner hour and locked it.

How Fat Actress Was Made Slim

Many stage people now depend entirely upon Marconi Prescription Tablets for reducing and controlling fat. One clever actress uses this new form of the famous Marconi Prescription Tablets several times a year keeps her weight just right. All good druggists sell Marconi Prescription Tablets in one dollar for a case or if you prefer you can get them in a bottle for 50 cents. Get the Case, 1611 Woodward Ave., Detroit, Mich. If you have not tried them do so. They are harmless and effective.—adv.

U. S. Force Small In New War Zone

Five Thousand Americans to Rely Mainly on Diplomacy—Seven Destroyers to Protect Property.

REAR ADMIRAL MARK L BRISTOL AND MRS. BRISTOL

CONSTANTINOPLE, Sept. 21.—Diplomacy, rather than force, is America's chief dependency in the belligerent Turkish situation.

Five thousand Americans in the new war zone depend for protection on the small naval force under command of Rear Admiral Mark L. Bristol, and upon Bristol's diplomacy in his capacity of American high commissioner to Turkey.

Admiral Bristol, alone of the foreign representative here, has the full confidence of the Turkish authorities. Meanwhile there has been much distrust among British, French and Italian in this region. For a long time they were at loggerheads, individuals and cliques playing secret games, politically commercially and financially.

Whispers of violations of neutrality have been heard from time to time, but America's position has been strong, for she is regarded as the only power which wants no special favors.

Uncle Sam's naval forces in European waters are at a minimum. Only one battleship—the U.S.A.—is in European waters; she is far away at Cherbourg. Seven destroyers, one station ship and two little submarine chasers constitute the total naval force of this government within reaching distance of the scene of the trouble.

No Force to Protect Property

These vessels carry no landing force or marines to protect property. A small force of marines stationed as a semiprivate guard at Constantinople and Smyrna is the extent of American land forces.

In addition to the lives of more than 5,000 Americans, much valuable American property is endangered by the present crisis.

Among the interests, Uncle Sam must safeguard the welfare of the representatives of the American Relief, Roberts College, Constantinople College, the American Girls' College, Red Cross, American Foreign Trade Corporation, Shipping Board, Standard Oil Co., American Tobacco Co., and the Guarantee Trust Co., which has a branch there, and many others.

Communication Speeded Up

By a system of communication set up by the navy, which is enabled to arm itself, Washington is enabled to communicate with Constantinople with a minimum of delay. Three hours is an outside time for a message to get through. Under good conditions, transmission is practically direct.

Messages coming to Constantinople are wirelessed from the navy radio station at Washington to the navy radio in Paris. There the message is relayed by leased navy wires to Vienna and Coblenz. From Vienna the message goes again by radio to a station in Constantinople by the American navy.

(By HARRY B. HUNT.)

WASHINGTON, Sept. 21.—Will a holy war echo through the world as a sequel to the Turkish-Grecian fighting in Asia Minor?

This question is troubling official Washington, as well as the extent to which America may be involved.

America's share in it lies in the hands of Rear Admiral Mark L. Bristol. He occupies the double position of American high commissioner to Turkey and commander of the American fleet of destroyers in near-east waters.

That official Washington places unusual trust in Admiral Bristol as a combination fighter and diplomat was shown by the state department's recent insistence that navy plans for transferring him to sea duty be abandoned.

Naval officials here, who have seen service with Bristol in Constantinople, say only his remarkable tact and courage have enforced recognition of American rights and interests in the new war zone. Bristol has been on his near-east post since Jan. 22, 1919.

"The situation in Constantinople has been a delicate one for more than three years," declares an officer who was aide to Bristol during the early part of his Constantinople service.

British, French and Italian representatives because of the fact that

Common Sense To Find Way Out In New Crisis

PARIS, Sept. 19.—(By the Associated Press Turkish). A bloodless settlement of the crisis in the Near East with the British troops shortly withdrawing from the Asiatic side of the Dardanelles was predicted by Ahmed Ferid Bey, principal spokesman for Mustapha Kemal Pasha in Europe, in the course of a statement to The Associated Press tonight.

"Common sense will win out in England despite the apparent belligerency of the British Government," said Ferid. "British soldiers will soon follow their French and Italian brothers to the European side of the straits.

Our troops he continued are "Proceeding to control of all of Asia Minor up to the strait Dardanelles. We will occupy Chankia, where the British troops are stationed, and if they fire upon us which we doubt very much."

Church Frowns On All Raffles

PORLTAND, Ore., Sept. 19.—Raffles, gambling and gambling devices are repugnant to God's law and should not be tolerated in the church, according to a resolution adopted today by the House of Deputies of the Protestant Episcopal Church in general session here.

The house of bishops adopted a coat of arms for the church to be used on all stationery and official documents. A flag with a red cross on white field was also approved by the bishops. The design of the coat of arms shows on a silver field a plain cross in red surrounded by a border in blue charged with stars in silver, all surmounted by a mitre. The bishops concurred in a resolution adopted by the deputies referred to a committee "the matter of communion cup." Charges against Bishop William M. Brown, retired of Arkansas, were dropped when a committee was discharged from further consideration of a petition from the diocese of Arkansas asking that Bishop Brown be brought to trial for heresy connection with statements in a book which he had published.

Harding Frowns On Pop Bottle Throwers

WASHINGTON, Sept. 19.—President Harding frowns on the spectator who hurled the pop bottle at Lawson Witt, the New York anarchist, in the St. Louis gun show on Sunday.

Col. T. L. Huston, Vice President and half owner of the Yankees, dropped in at the White House this morning to talk about the Soldier Bonus Bill, but instead the conversation drifted to the great American sport, which the President follows closely.

Col. Huston said the President did not indicate his intentions about the bonus.

"In fact, we talked about baseball principally," said the Colonel, who is Commander-in-Chief of the Veterans of Foreign Series.

President Harding wanted to see one of the championship games last year but was unable to leave Washington.

FINE PARENTS WHEN CHILDREN ARE TARDY

CHARLOTTE AMELIE, St. Thomas, V. I., Sept. 20.—The Virgin Islands have the nearest to 100 per cent attendance in the public schools of any state, territory or possession of the United States, according to comparative statistics from Washington.

The school year which has just opened probably will show as high a percentage of attendance as last year, which was a fraction less than 99 per cent. It is not unusual for school to report 100 per cent attendance week after week.

There is compulsory education for all children from six to 15 years of age. When a child is absent from school without proper excuse the parents are fined 20 cents for each day of absence. Parents are fined 10 cents for every time a scholar is tardy. When sickness is reported as the cause of absence, school nurses investigate, and only on certificates from these school nurses is the excuse of illness recognized. Simple treatment by the nurses frequently makes it possible for a child to return to the class room.

With this system of press "playing hooky" is practically unknown in the islands.

White United States by purchase of the Virgin Islands from Denmark in 1917, there was already a well developed school system, and there were less than five per cent illiteracy in the island. The system, however, then extended only to the sixth grade. Since then ninth and eighth grades have been established generally, and two high schools have been opened with the junior year being offered for the first time. In another year it is planned to establish the ninth and tenth year of high school.

Children in the Virgin Islands are taught to learn according to School Director Naso, head of the insulation and the collecting of fines for truancy and absence does not yield more than \$10 per month. This year there are 15 school teachers from the United States giving instructions in the island schools, while all of the other teachers are Virgin Islanders.

U. OF VA. BEGINS 91ST SESSION

CHARLOTTESVILLE, Va., Sept. 20.—The ninety-eighth session of the University of Virginia opened today with 1,420 students registered. President Alderman expects the total enrollment finally will approximate that of last year—1,750.

While the session began sixteen fewer students had registered than on the same day of last year.

Twenty-seven women have matriculated—only two more than last sea-

KEEPS THE ROSES IN YOUR CHEEKS

Men and women seeing you for the first time are impressed first of all by your face—your complexion. If it is soft, smooth, velvety and of rose-petal texture, they cannot help but admire, for you are attractive, adorable and lovely.

Keep the roses in your cheeks. You can with the aid of Nadine Face Powder, now in the new blue box—for Nadine gives your complexion an adorable loveliness.

Nadine makes your skin soft, smooth and velvety and lends that alluring fragrance of a flower garden. It gives your skin a refreshing coolness. Nadine, too, absorbs until washed off, and gives protection from tanning sun and withering winds.

If not pleased, we will refund your money. Price 50c. at your toilet counter. If temporarily out, by mail, or send for miniature sample box. White, Flesh, Pink, Brunette.

REPLIES TO ATTACKS

WASHINGTON, Sept. 20.—Impeachment proceedings against Attorney General Daugherty up to the present time look like a good deal like comic opera. Chairman Voelker of the House Judiciary Committee declared today in a statement replying to attacks on his committee by Representative Keeler, author of the impeachment resolution, Samuel Gompers and others.

The chairman declared that Mr. Keeler when invited to appear before the committee could not be coaxed to do so, and that he was not told of the nature of the charges.

From Frying Pan Into Fire

When this plane dived into the Spokane river, near Spokane, Wash., its occupants escaped without a scratch. But they were immediately arrested for violating an ordinance relative to distributing handbills!

U. S. Institution To Observe Eclipse

CHARLOTTESVILLE, Sept. 19.—An eclipse of the sun which occurs Thursday will be visible only from islands in the Indian ocean and on the east coast of Africa, but it is attracting considerable attention among astronomers because of the light it is expected to throw upon the Einstein theory, according to Dr. Harold Lee Alden of the McCormick observatory at the University of Virginia.

On account of the distance to the point from which the eclipse may be seen, the Lick observatory, cooperating with the Dominion Observatory of Canada, is the only American institution sending an expedition to study this eclipse. This party has gone to the Christmas Islands. Several British and Australian observation parties are ready for work. Dr. Alden said that the average duration of the eclipse will be about two and a half minutes, and the longest duration six minutes.

September 10, 1923, a total eclipse will be visible off the coast of California and Mexico and the McCormick observatory is planning to send an expedition to the Catalina Islands in co-operation with the Yerkes observatory.

New Guinea has an area equal to that of France and the British Isles combined.

Million Pounds Of Tobacco At Winston

WINSTON-SALEM, N. C., Sept. 19.—The local tobacco warehouses report the biggest break for an opening day in the history of the tobacco market. It was estimated that more than a million pounds of leaf were brought here for today's sales. Several farmers, finding that sales would be blocked and that they would not be able to sell today, returned home, some of them taking their tobacco with them.

Several representatives of the Cooperative Marketing association were here to see how the weed sold. Some of them contended that it was low, while others held that prices were all that might be expected considering the quality of the weed, and the average about 20 cents. The highest price paid was sixty cents.

There are eight thousand students in the city schools, according to announcement made by Supt. Latham.

ISLAND SWEEP BY STORM

HONOLULU, Sept. 20.—(Associated Press)—Myakehshima, one of the seven isles of Izu in northeastern Japan, has been swept by a typhoon, one of the most disastrous in the island's history, which destroyed 2,100 homes and damaged forty-five vessels, according to advices from Tokio to the Nippon Jiji, a Japanese newspaper of Honolulu. Nine lives were reported lost.

Syrup Pepsin Helps Nature Give Relief

Try it when a Laxative is needed and see the wonderful results.

ANY FAMILY MAY TRY IT FREE

Thousands of parents are asking themselves, "Where can I find a tried and tested laxative that can be used when constipated?" I urge you to try Syrup Pepsin. I will gladly provide a liberal free sample, sufficient to satisfy your curiosity. Write me where to send it. Address Dr. W. B. Caldwell, 515 Washington St., Monticello, Illinois. Do it now!

years. Dr. Caldwell's Syrup Pepsin is a compound of Egyptian senna and pepsin with pleasant-tasting aromatics, and does not cramp or gripe. Every druggist handles it, and bottles are so generous when a natural vegetable compound like Dr. Caldwell's Syrup Pepsin will do the work equally well and without danger. People should realize that mercury may salivate and in certain conditions loosen the teeth; that phenolphthalein, by whatever name known and however disguised in candy, may cause dermatitis and other skin eruptions; that salt waters and powders may concentrate the blood, dry up the skin and cause lassitude.

You can take Dr. Caldwell's Syrup Pepsin yourself or give it to a babe in arms, as thousands of mothers do every day, with the confidence that it is the safest and best medicine you can use for constipation and such complaints. A teaspoonful will relieve you over night even if the constipation has been chronic for years.

Mrs. A. Arceneaux of Orange, Texas, suffered from constipation for six years and found no relief until she took Dr. Caldwell's Syrup Pepsin; and Mrs. Gus Anderson of Ball, Kans., corrected her bowel trouble so that she now eats and sleeps normally. Bring a bottle of Dr. Caldwell's Syrup Pepsin into your own home and let the family use it for constipation, biliousness, wind, gas, headaches, flatulence, and to break up fevers and colds.

Take Dr. Caldwell's SYRUP PEPSIN. The family laxative.

The Straight Line

WHEN a railroad is constructed from one town to another engineers strive to make the line as straight as possible. Because a straight route is shortest, quickest and least costly.

Business furnishes a parallel case—the line between the man who makes something and the man who wants something.

Advertising provides a short cut between the manufacturer and you. Advertisements make it possible to tell you in a few minutes all you want to know about the services or articles you need.

A glance through this paper enables you to sift out the things that interest you, and in a moment you know just where and when to go for what you want.

Figure how many steps, how much needless walking and talking the advertisements save you and your neighbors. Then you will realize the great economy of advertising.

Advertising Plays a Necessary Part in Your Life. Read It.

HAMPDEN-SIDNEY TO MEET V. P. I. ON THIS SATURDAY

SHANER LEADS DANVILLE TEAM FOR LAST HALF

HAMPDEN-SIDNEY, Va., Sept. 20.—With Captain Hugo Brenaman directing the team from quarterback position, the Hampden-Sidney football squad is rapidly coming into shape for the first game of the season. Each afternoon the thirty men of the varsity squad gather on Death Valley where a snappy signal practice is run after which personal instruction by coach Roundy is given. This is followed by a more strenuous ordeal, namely that of tackling the dummy and of climbing.

Much to the delight of the football officials at Hampden-Sidney, there is a surplus of line material which is being used up advantageously. The scrimmages that have been held, the two lines seem about well balanced. Hall, Durham, and Blankenship, all new men in the varsity line, have been putting up a strong fight. All of these lads have a fair chance to make the Tiger squad.

On Saturday of this week Hampden-Sidney meets V. P. I. in the opening game of the season. This game is looked forward to with much interest since the A-S team of 1921 made such an excellent showing against V. P. I., and since the team of this year is composed of nine letter men.

RACING EVENT PUT OFF

COLUMBUS, Ohio, Sept. 20.—Today's card of grand circuit racing was postponed until tomorrow on account of a muddy track. The postponement will extend the meet into four days of next week.

MEADOWBROOK FOUR WINS

PHILADELPHIA, Sept. 20.—The Meadow Brook polo four today defeated the Argentine Federation team, champions of England and the United States 15 goals to 4. It was the worst defeat suffered by any team in the present international tournament at the Philadelphia Country Club. The final match on Saturday will be between Meadow Brook and Eastcott, the Anglo-American team.

GRAND RAPIDS WINNER

LUDINGTON, Mich., Sept. 20.—Grand Rapids won the Central League pennant today in the split-season play-off with Ludington, by defeating the locals 4 to 1. It was the fifth victory for Grand Rapids to three for Ludington.

WORLD'S RECORD IN GOLF

YOUNGSTOWN, Sept. 20.—Emmet French, local professional made what is believed to be world's record here today by winning the 72 hole Ohio Open Golf Championship with a total 274. His score over the par 73 course was 67-68-71-68—274.

Local golf followers say the world's record for 72 holes of medal play in a competitive match is 275 made by Douglas Edgar.

DEFENDS TITLE

TORONTO, Ont., Sept. 20.—Emmet French, local professional made what is believed to be world's record here today by winning the 72 hole Ohio Open Golf Championship with a total 274. His score over the par 73 course was 67-68-71-68—274.

The time for the mile and a quarter was 2:05 1-8.

CLOTHING DUMMY TELLS WHAT'S NEW

AS "SCOTTY, THE ARTIST" SAW THINGH THROUGH THE DUMMY'S EYES, AT THE MEN'S STYLE SHOW.

(By DUDLEY SIDDALL)

NEW YORK, Sept. 21.—Here's glad news men, right from the cutting-edge trade. Styles for this winter vary little for clothes. You can't go wrong if you wear coat, pants, vest, and their regularly ordained accessories.

Just as at advantage, Daniels and Floyd have on Whitman as one of the trio of outfields, it is difficult to determine.

The Greensboro writer says of Mc-

Millan: "McMillan appears the best bat at the initial sack. The Danville player is a great painer of the ball, fields his position well and is capable of filling in the role of utility player."

Heaven only knows what would have happened if a kindly disposed clothing dummy hadn't detected Scotty red-handed in the act of sketching a pair of Valentine pants.

"Lay off that stuff," said the C. D. Valentine pants may be going big in Detroit and on the coast but anything goes in those places. And don't let none of these birds tell you that there ain't in style if he don't wear knickers every time he goes out-of-

doors to buy a cigar at the corner store. 'Till give you the straight dope on this style stuff. Believe me, I'm the guy that knows, because a clothing dummy wears everything."

With this prelude the c. d. took Scotty on a hop, skip and jump from booth to booth. Almost every prominent manufacturer was represented in an effort to show all the models of men's clothing that will be displayed in the retailer's windows from coast to coast this winter.

On a stage built after the general design of Brooklyn Bridge, dozens of mannikins stepped gaily around to soft music and the spotlights bright gleaming in a fashion show staged by Alexander Leftwich, general director for Daniel Frotzman.

"You blamed chump," said the dummy, "you've gone and done like the jazz stuff all over again."

Scotty's wax corn almost melted in the wax in the c. d.'s face.

"You may know the dummyming business," said the artist, but if I show the exact pictures of the styles as reflected here in the show, they'd look so ordinary that nobody would look at them. What I'm doing is art."

Kerr Mitchell, who has been in Edmonds Hospital for two weeks with influenza, is reported to be improving. Mrs. Mitchell, ill of the same complaint at her home, is also improving.

DURHAM AND HIGH POINT BATTLE TO TIE; GAME CALLED ON ACCOUNT OF DARKNESS

Durham, N. C., Sept. 20.—Before a crowd estimated at more than 5,000 people Durham and High Point this afternoon batted to a 5 to 5, nine inning tie, in the third game of the Piedmont League 1922 post series.

Lee Gooch's single second base in the ninth inning sent Paul Daniels racing across the home plate with the run that tied the score for Durham, after a try for the visitors appeared inevitable.

The game proved to be the most exciting of the series. During the early stage, Durham had the breaks and to all appearances was to be returned a winner. High Point got next to Deacon Hollis Atkinson in the seventh frame for three hits and three runs, and then the fun began.

Previously the Pointers had scored a run due to a wild pitch. In the eighth inning with the score tied the visitors put over a tally, and the hopes of the Durham fans ran to a low ebb.

The ninth inning brought of great excitement, however, for many of the fans to protest when Empire Gaffney announced that the game had been called "on account of darkness." It wasn't really dark, but one more inning would have been the best that could have been hoped for. Neither manager seemed anxious to continue the fray.

The feature fielding play of the afternoon was contributed by Schmidt, the visiting shortstop, who leaped into the air and pulled down a line drive off Resco's bat in the seventh frame.

There was a runner on second at the time, and the play saved High Point's facing odds. Another feature play was staged when Magrann, Cary and Resco put over a double killing in the first frame, preventing a score.

Durham's first run resulted from a base on balls for McCullough, his steal of second base and Gooch's single, following Daniels's strikeout.

In the third inning Atkinson reached first on Overton's error, he was sacrificed to second by C. D. McCullough walked. Daniels single and Atkinson reached first in the sixth on Schmid's error. Cary was hit by a pitched ball. McCullough got an inside hit when Wacha was caught flat-footed. Daniels walked, forcing in Atkinson. Gooch flew out to right and Cary scored.

In the sixth the visitors got one run, with one out. Irby singled to center, he went to third on Kinson's wild pitch and counted when Herndon drove a long fly to Lee Gooch.

High Point put over three runs in the seventh. Smith and Thrasher sin-

gled successively, Overton walked. Schmidt grounded out, second to first, Smith scoring. Powell flew out to right and Thrasher scored. Snyder singled through second and Overton scored.

Visitors took the lead in the eighth. Herndon opened the frame with a double to right. Wacha was safe on Atkinson's error. Herndon taking third, Smith popped out to Resco. Thrasher singled and Herndon scored. Overton popped out to McCullough and Schmidt popped out to Dayton.

With one out in the ninth, Daniels was walked, while Gooch argued over a called strike. Daniels stole second. Gooch singled over second and Daniels scored. Dayton bunted and Eldridge who had been sent in to relieve Snyder threw Gooch out at second. Rodgers grounded out to first.

ADVISED TO LEAVE TOWN

LONDON, Sept. 20.—(Associated Press)—The British headquarters at Chanak have advised the Christian Mission and Jewish civilians to evacuate as the town may be shelled by the Turks, says a despatch from the Times Dardanelles correspondent until yesterday's date.

PANDERNA IS ABLAZE

LONDON, Sept. 20.—(Associated Press)—Panderna, on the Southern shore of the Sea of Marmora, is burning and there are numerous casualties. The French Minister of Marine announced in Paris tonight on information from Admiral DuMeant, commander of the French naval forces.

Mrs. Ethel Yeatts left Tuesday to enter the State Normal School at Farmville.

Cured Her Rheumatism

Knowing from terrible experience the suffering caused by rheumatism, Mrs. J. E. Hurst, who lives at 608 E. Douglas Street, C 379, Bloomington, Ill., is so thankful at having cured herself that out of pure gratitude she is anxious to tell all other sufferers just how she got rid of their torture by a simple way at home.

Mrs. Hurst has nothing to sell. Merely mail your own name and address, and she will gladly send you this valuable information entirely free. Write her at once before you forget—adv.

Just Apply This Paste and the Hairs Will Vanish

(Beautour Secrets.)

The judicious use of a delatone paste insures any woman a clear, hairless skin. To prepare the paste, mix a little of the powdered delatone with some water, then apply to the objectionable hairs for two or three minutes. When the paste is removed, and the skin washed, every trace of hair will have vanished. No pain attends the use of the delatone and it will not mar the most sensitive skin, but to insure results, see that you get real delatone, —adv.

Wonderful For Sick Stomachs

Everyone who tries it willingly acknowledge that it does cure indigestion, and certainly banishes dyspepsia and other stomach distress almost instantly.

Read this letter from Wm. Starkey, Rock Creek, Ohio:

I was sick for several years, went to hospital after getting no relief from doctors and many remedies that I tried. Unable to work and confined to the house, I was advised to try Dr. Orth's Stomach Remedy. I had no faith in anything any more, but I tried it and to my happy surprise it did me good. I am now perfectly well and for six months have been working every day in the blacksmith shop, eating everything I want and in perfect health.

It is with pleasure that I recommend Dr. Orth's Stomach Remedy.

Money back if Dr. Orth's Stomach Remedy does not do what we say it will, and remember that this remarkable remedy is the prescription of a practicing physician who used it with great success in exactly such cases as yours during a period of 60 years. Thank E. McFall's and all good druggists can supply you—adv.

MOTHERS AND DAUGHTERS

Read This Letter from Mrs. W. S. Hughes

Greenville, Del.—"I was under the impression that my eldest daughter had some internal trouble as ever since the first time her sickness appeared she had to go to bed and even had to quit school once for a week. I always take Lydia E. Pinkham's Vegetable Compound myself so I gave it to her and she has received great benefit from it. You can use this letter for a testimonial if you wish, as I cannot say too much about what your medicine has done for me and for my daughter."—Mrs. W. S. HUGHES, Greenville, Delaware.

Mothers and oftentimes grandmothers have taken and have learned the value of Lydia E. Pinkham's Vegetable Compound. So they recommend the medicine to others.

The best test of any medicine is what it has done for others. For nearly fifty years we have published letters from mothers, daughters, and women, young and old, recommending the Vegetable Compound. They know what it did for them and are glad to tell others. In your own neighborhood are women who know of its great value.

Mother—daughter, why not try it?

Mother-To-Be, Read This

Here is a wonderful message to all expectant mothers. When the Little One arrives, you can have that moment more free from suffering than you have ever known. An eminent physician, expert in this science, has written this way. It was his wife, Mrs. Mary Katherine Campbell, of Columbus, O., who won the title in a recent national contest of "America's most beautiful girl," she has been sought after by artists, movie men and theatrical producers, all anxious to display the beauty to the public. Here Miss Campbell is shown sitting for a portrait by Joseph Cummings Chase, noted New York portrait painter.

Ever since Miss Mary Katherine Campbell of Columbus, O., won the title in a recent national contest of "America's most beautiful girl," she has been sought after by artists, movie men and theatrical producers, all anxious to display the beauty to the public. Here Miss Campbell is shown sitting for a portrait by Joseph Cummings Chase, noted New York portrait painter.

"With my first two children I had a doctor and a nurse and they had to use instruments, but my last two children I used 'Mother's Friend.' Mrs. C. J. Hartman, Scranton, Pa.

"With my first two children I had a doctor and a nurse and they had to use instruments, but my last two children I used 'Mother's Friend.' Mrs. C. J. Hartman, Scranton, Pa.

"Mother's Friend" is sold by druggists everywhere.

Note: Why so valuable? An illustrated book "Motherhood and the Baby" contains extensive information which every expectant mother should have. It also contains "Mother's Friend." A Bradbury, Crandall & Smith-Peterson book, "Mother's Friend" is sold by druggists everywhere.

INSURANCE FUNDS PUT INTO NEW HOUSES; NEWEST PLAN TO SOLVE HOME SHORTAGE

(Special Dispatch to The Bee.)
NEW YORK, Sept. 21.—An experiment is being conducted in Long Island City which may point the way to a solution of the national housing problem.

"Cooperative building is the answer to this economic question," says Walter Stabler, comptroller of the insurance company that is undertaking this great development.

Stabler is the man who is handling the \$7,000,000 home building program. This radical and unprecedented use of life insurance funds for the public benefit is the result of a special amendment to the insurance law, obtained as a sequel to Samuel Untermyer's spectacular exposure of building and housing evils in the Lockwood committee's investigation.

Homes are being built for 1950 families. They will rent for \$9 a room and are designed chiefly for industrial workers and persons of small incomes.

In addition to this building enterprise the same insurance company that is carrying the load of the city has loaned upwards of \$1,000,000 for the construction of 9,000 houses and 1,000 apartment houses in various parts of the country.

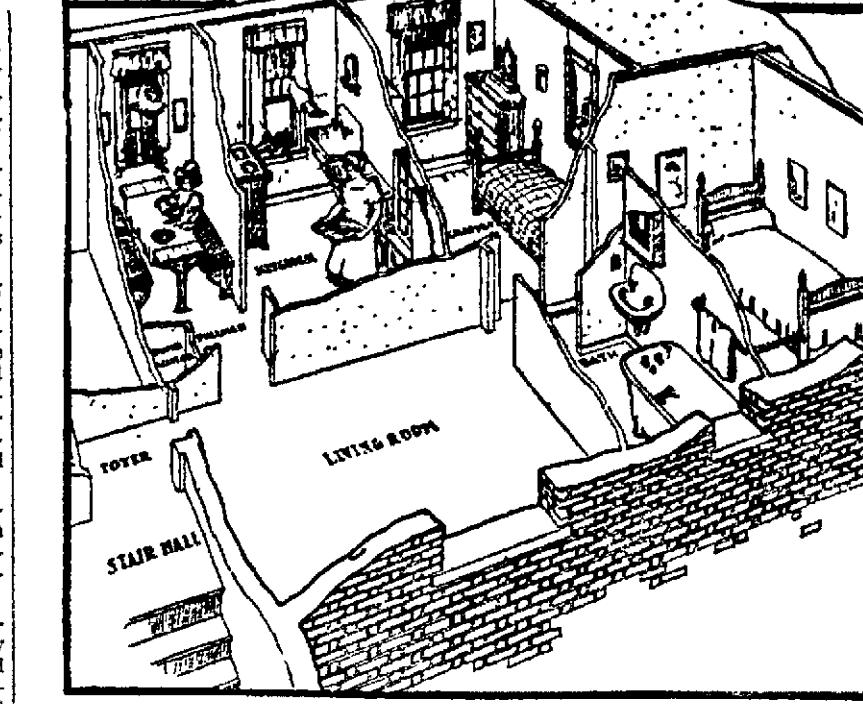

"The Lockwood committee's investigation pointed to co-operative building as a cure for housing evils," said Stabler. "Profiteering raised rents out of proportion in many old properties, while a combination of abnormal circumstances increased the cost of new construction. A movement more or less altruistic was necessary to bring relief."

"Hence the program we have undertaken, in which we are seeking not more than six per cent return on the investment and three to five per cent to amortize the cost of the building, as compared to the 15 per cent, and higher demanded by the speculative builder."

Demonstrate Practicability

"We are out to show that good homes can be built cheaply—first by quantity buying of materials; second, by co-operation of labor; and third, by eliminating profiteering in construction and materials."

"These homes are being built for considerably less than individuals could build them, because of quantity production. Nine dollars a room for this class of dwelling is low in New

ARCHITECT'S DRAWING OF ONE OF THE NEW CO-OPERATIVE APARTMENT HOUSE GROUPS AND (BELOW) A DRAWING SHOWING THE INTERIOR ARRANGEMENT OF ONE OF THE SUITES.

York. Workers all over the city are co-operative plan on practically a cost basis. Preference is to be given to workers who contributed to the undertaking.

The new law which permits home building by life insurance companies will expire in April, 1924, and whether the building program will be extended depends on conditions in the future.

The housing shortage all over the country is not as serious now as it was, Stabler said. "But there is a great deal of doubling up, and I think—in spite of record breaking building operations o the past summer—the shortage will become acute again when business gets better and families begin to spread out."

"Building costs, in my opinion, will never drop back to the pre-war level. My guess is that they will be from 65 to 70 per cent higher, permanently.

Americans are building better, working better, and living better—and some such radical departure as cooperative building seems necessary to meet our needs."

"Miss America" Becoming Famous

Ever since Miss Mary Katherine Campbell of Columbus, O., won the title in a recent national contest of "America's most beautiful girl," she has been sought after by artists, movie men and theatrical producers, all anxious to display the beauty to the public. Here Miss Campbell is shown sitting for a portrait by Joseph Cummings Chase, noted New York portrait painter.

Presidential Veto Is Sustained in Senate on Soldiers' Bonus Bill

WASHINGTON, Sept. 20.—The soldiers' bonus bill failed of enactment late today. The Senate sustaining President Harding's veto. Previously the House had overridden the veto by a large margin.

The Senate roll call showed 44 yeas and 28 nays, or four less than the two-thirds majority necessary to enact the measure without the president's approval. The vote in the House was 258 to 54 or 50 more than the required number.

Although it was stated that a new bonus bill might be introduced tomorrow, it was certain the bonus fight would not be renewed at least until the next session of Congress, which will begin December 4.

The House vote on the first passage of the bonus last March 23 was 332 to 70, or 475 to 1, as compared with 47 to 1 today. The Senate vote today compared with 47 to 22 by which the measure was first passed on Aug. 21.

Most of the House votes to sustain the president were cast by members from eastern and southern states, with western delegations voting solidly for the bill.

There was only brief consideration of the measure in the House. In calling for the bill, Mr. Mondell said it had been considered for a long time and that further debate was not likely to change a single vote and was unnecessary. Mr. Garrett asked that there be an hour's discussion but after cries of "vote, vote" from the Republican side the majority leader moved the previous question and the roll call was ordered.

Announcement of the result of the voting was received in silence by the membership and the well filled gallery—the same as there was in the Senate.

Within an hour after the House acted, the bill and the president's veto message were sent to the Senate. Discussion on the subject, however, had been under way for some time.

When the House clerk delivered the bill, the president's veto message was read. Senator McCumber, North Dakota, in charge of the bill, moved to defer action until tomorrow.

Several senators urged that there be no delay but Senator McCumber expressed the opinion that if the matter went over until tomorrow some senators favorable to the bonus, who were absent might return.

Senator Heflin, Alabama, told the Senate there was no need for great

speed now and that if Mr. McCumber thought delay of a day or two would help matters he and other senators were prepared to see that a vote was deferred even if they had to talk until the next day.

Senator Robinson, Arkansas, urged against delay, declaring that with Congress to adjourn in two days the session might end without a decision on the question.

The North Dakota senator replied that he wished delay in the hope that "courage might be pumped into the hearts" of some senators, who, he asserted, were "getting a little weak-kneed" against voting to override the president.

Senator New, Indiana, a leader of the opposition forces, remarked that delay might have the opposite effect.

The finance commission chairman, withdrew his motion and Senator Heflin spoke for an hour in support of the bonus and against what he has termed the "deflation policy of the federal reserve board." He charged that Wall Street has promoted a propaganda against the bonus.

While the Alabama senator was talking, leaders agreed to have a vote before night and the debate was closed by Senator McCumber, who warned that the bonus question could not be settled until it had been settled in accord with the judgment of the great majority of Congress.

While the Alabama senator was talking, leaders agreed to have a vote before night and the debate was closed by Senator McCumber, who warned that the bonus question could not be settled until it had been settled in accord with the judgment of the great majority of Congress.

President Harding supplemented the talk of the speakers, touching upon several points which had not been brought out with sufficient detail and clearness in the hurried and informal talk of the earlier session. His speech gave assurance that the officials of the Fair would spare no effort to prevent naming dealers operating in any exhibition which they do not consider creditable.

He also entered into the details of arrangements for motor-cars of visitors. The reservoir park or Bellair park, as it is properly known, will be a free parking place for cars to the extent of its safe capacity, while just across the street the baseball park would be secured for the retro-

cess.

LOUISIANA CROP IS LARGER THIS YEAR

(BY I. V. SHANNON)
NEW ORLEANS, Sept. 20.—The statisticians of the United States crop reporting bureau estimated today that the crops of this state will bring growers \$20,000,000 more this year than last.

Total sales, 980,000 shares.

FALL OPENINGS OF DEPARTMENT STORES

(BY FRANK D. MCCLAIN)

PHILADELPHIA, Sept. 20.—Fall openings at the department stores have been the feature of retail trade in this section this week and have drawn unusual crowds of shoppers from outside territory. The large volume of business done shows that there is no lack of money among buyers.

Increased wages in the steel trade, resumption of work in the coal mines and continuation of building activities have contributed to the prosperity of a large area surrounding this city.

The scarcity and high cost of coal is the only drawback apparent in the business situation. Shops constructing locomotives, stationary engines, machine tools, textile goods, shoes and all sorts of electrical equipment are very busy.

IMPORTS AND EXPORTS EXCEPTIONALLY HEAVY

SAN FRANCISCO, Sept. 20.—Imports and exports are exceptionally heavy at the Pacific coast shipping points. Much of this is passing through the Panama canal and increases were reported today in the trade to Central and South America.

NOTICE

Teachers appointed to teach in Dan River District will please meet the trustees at Kentuck Church Saturday Sept. 23 to sign contract. Please bring your certificate. White teachers will meet at 9 o'clock. Colored at 2 o'clock. J. H. Terry (Clerk) 9-21 R&B2t.

CLOSING COTTON LETTER

(Thomson & McKinnon)

NEW YORK, Sept. 20.—A further recovery was encouraged by continued optimism over the Near Eastern situation, firm Liverpool cables reports of renewed activity in cotton goods, and bullish advice from modern spot markets today.

Neither the feature nor the unfavorable weekly report of the weather bureau materially stimulated demand and after showing recoveries of about 75 points from Monday's lows, the market hesitated.

Evidently general confidence in later season's values is still coupled with uncertainty as to the continued absorption of hedging against daily increasing receipts. But ginning is already beginning to fall off in some of the earlier sections and we feel that the logical time to buy cotton is on any such declines as may occur during the autumn.

Sees U. S. Being Drawn Toward War

Oscar Strauss Says Allied Jealousy Cause of Present Turkish Crisis—Also He Blames Greece.

(Special Dispatch to The Bee) NEW YORK, Sept. 21.—Present conditions in Asia Minor are so serious that there is "great danger of a rerudescence of the World War," declared Oscar S. Straus, twice minister and former ambassador to Turkey in an exclusive interview today. The former ambassador, who is probably as familiar with the Turkish question as any other man in the United States, emphasized these points in his interview.

ONE—Turkey, Russia and Germany with one or more of the Balkan States, may pool their forces against the allied powers.

TWO—The United States, for its enlightened self-interest, may be compelled to take a part in preventing a world-conflagration and in restoring peace.

THREE—A general conflagration can be avoided only if (a) Great Britain, France and Italy reach an immediate agreement and (b) if the Treaty of Versailles be materially revised.

FOUR—The present menacing condition would not have developed had the United States, under an reservation we chose to make, joined the League of Nations.

FIVE—Venizelos, Greek premier called at return of Constantine should be immediately recalled and placed in power.

"I do not wish to be a prophet of evil," said the former ambassador, "but the danger of an outbreak of the World War is great. I say great because the present state of affairs may bring German, Russia, Turkey and one or more of the Balkan states together in close alliance.

The militarist and monarchical party in Germany have nothing to lose and everything to gain in their estimation by joining with Russia and Turkey. Furthermore the Russian-Soviet system would be immeasurably advanced by such an alliance.

Today Russia has in readiness the greatest army in the world. That army, organized and led by German officers, can be enlarged to any extent.

With the world exhausted as it is, bleeding at every wound, another war carried on with the possibilities of endless woe in the disorganization of nations would bring within the allied nations themselves."

Straus discussed the causes of the present situation.

"For the past 100 years the Eastern question has menaced the peace of Europe not because of the dominant power of Turkey but because of the jealousy and the antagonistic interests of European powers in respect to Turkey."

"The diplomacy of the Turk has been to take advantage of this antagonism."

"The present situation has developed because Turkey took advantage of the jealousy between Great Britain, France and Italy."

"A new world conflagration may ensue unless Great Britain, Italy and France come promptly to accord. It

OSCAR STRAUS

was their failure to act in concert that caused the present situation to develop.

"Had the United States joined the League of Nations, the dominant moral prestige of our country could have prevented the disagreement between the allies and brought about an agreement in regard to Turkey. Then Greece would not have dared to begin the war."

"But Greece is immediately responsible for the present condition. During the war that nation was under the leadership of Venizelos who proved himself one of the foremost statesmen of the allied powers. After deserving so well of his country he was deposed and made an exile."

"Had he been at the head of affairs, Greece would not be in the plight she is in today. To come from this position to another one, as we will, emphasizes the necessity of the allied powers—Great Britain, France, Italy and the others—and (2) Venizelos should be recalled immediately and placed in power of Greece."

"And furthermore, if we are going to avoid another war, the Versailles treaty will have to be materially revised. This revision is possible only if the allied powers come to prompt agreement. Only a solid diplomatic front on the part of the allies can bring about a peace."

"It is a world calamity that we have not cooperated with the allies by joining the League of Nations."

"Had we joined the present situation, I believe, would not have arisen. As things now stand, it is within the realm of probability that for enlightened self-interest we may be compelled to take a part in preventing a world conflagration and in restoring peace."

"And all this menacing condition finds its cause now, as in the past, in the opportunity given to the Turks by the mutual jealousies of the powers imposed upon them. The present lack of contact between Great Britain, France and Italy emphasizes the fact that the Treaty of Versailles was in many respects unwise and was stimulated by a spirit of revenge rather than by that of calm and forward-looking statesmanship."

Murrell B. Hitchens, Telegraph Operator, Taken Into Custody by Detective Nowitzky at Hallwood.

NEW YORK, Sept. 24.—The 15th arrest in connection with the death of Miss Nettie E. Fisher, Cape Charles telephone operator, was made last night at 11 o'clock, when Murrell B. Hitchens was taken into custody on a criminal warrant at his father's home at Hallwood, Accomac County.

Hitchens is employed as a telegraph operator by the N. P. & N. Railroad at Cape Charles. Detectives Leon Nowitzky, after conducting a thorough investigation here of the circumstances of Miss Fisher's death, went to Cape Charles early last night. There he was joined by Sheriff Harry Parker. Together they drove in an automobile to Hallwood, and where young Hitchens was placed under arrest. The prisoner was taken to the Accomac County jail. He will be brought to Norfolk this morning.

Miss Fisher died last Wednesday night at the Protestant Hospital a few hours after her removal from Miss Blanche L. Hammack's rooming house at 214 Beach Street. An autopsy performed by Dr. R. Lloyd Williams, city coroner, convinced him that death had resulted from an illegal operation and the city police were instructed to investigate the case.

Last Friday Miss Hammack and Dr. F. A. Barnes were arrested in Norfolk. They are alleged to have been involved in the murder of the Cape Charles girl, and also in a murder, a colored girl employed as a maid at Mrs. Mary Parker's rooming house, and Mrs. Mary Parker's nurse, who were found dead later in the day.

Police investigation resulted in the arrest of Mrs. Parker's maid, Mrs. Parker's maid, and Mrs. Parker's nurse. Mrs. Parker's maid was critically ill at Mrs. Hammack's house.
